Deployed Link: <https://sherryj-sk.github.io/Project1/>

### Work Experience

*New Business Administrator - SuperConcepts*

February 2019 – current

Help to process new applications and on-board clients by using communication skills. Handle handful clients and provide high quality of client service. Assigned to a project to help manage a portfolio of funds, communicate with offshore accountants and allocate daily tasks.

- Accomplishment:

1. Received excellent feedback from clients and commendation letter from CEO;
2. Reduced new funds turnover time;

*Fund Administrator – SuperConcepts*

April 2016 – February 2019

Helping educate clients on self-managed superfund regulations and solve their queries. Handle 100+ superfunds, assist daily reconciliation and manage tax return to be lodged on time. Help team members or colleagues with accounting processing questions.

- Accomplishment:

1. Improved team lodgement rate by 10%;
2. Nominated for the extra mile award – recognised for putting myself in our clients and colleagues shoes;
3. Provided training to 3 new accountants on reconciliation process, and helped Training and Development team to recorded training session for offshore team.
4. Received positive feedback from colleagues about the useful training.

## **Education**

*Coding Bootcamp – Full Stack Web Development*

University of Sydney
