Full Stack Developer with an accounting background. Completed a Certificate in Full Stack Development Bootcamp from University of Sydney gaining skills in front and back end. Aim to develop UX and UI efficient applications with creativity. Able to complete targets with efficiency and quality individually or cooperating with team members.

## Technical Skills

**Tools:** MS Visual Studio, Postman, Robo 3T | **Languages:** HTML, CSS, JavaScript | **JS Library:** JQuery, Node.JS, Express.JS, React, Redux, handlebars | **CSS Frameworks:** Bootstrap, Materialize | **Database Management:** MySQL, MongoDB

## Projects

### Villager HandBook (Individual Project)

The application allows users to search the characters in Animal Crossing, also communicate with friends through the app by sending greeting cards.

- Utilised HTML, CSS (Materialize CSS Framework), JavaScript (React, Express, Express-session, Node, Nodemon, passport, redux) and MongoDB
- Deployed Link: <https://villager-handbook.herokuapp.com/>
- Github Link: <https://github.com/SherryJ-SK/ACVH>

### One Page Man (Group Project)

The web-based application is the simplest way to create a stunning static webpage.

- Utilised Nodemon, Sequelize, MySQL, Cloudinary, Handlebars and Materialize
- Deployed Link: <https://thawing-inlet-42364.herokuapp.com/>
- Github Link: <https://github.com/SiJBC/project2>

### My Events (Group Project)

Two paged web application, which is used to aid users on searching for events they like, and track them as their favourite in favourite page.

- Utilised HTML, CSS, Materialize, Bootstrap(for development only), Javascript, JQuery, Moment.js and Ticketmaster API
- Deployed Link: <https://sherryj-sk.github.io/Project1/>

## **Work Experience**

New Business Administrator  
**SuperConcepts, Sydney**

February 2019 – Current

Process new applications and on-board clients through clear and personalised communication to maintain high customer satisfaction. Handle difficult clients and provide high quality of client service through effective problem solving skills. Assigned to a project to help manage a portfolio of funds, communicate with offshore accountants and allocate daily tasks.

Accomplishments:

1. Received excellent feedback from clients and recommendation letter from CEO
2. Reduced new funds turnover time by 10% resulting in an increase of productivity

Fund Administrator  
**SuperConcepts, Sydney**

April 2016 – February 2019

Educated clients on self-managed superfund regulations and solved their queries. Managed 100+ superfunds, assisted daily reconciliation and managed tax returns to be lodged on time. Helped team members with accounting processing questions.

Accomplishments:

1. Improved team lodgement rate by 10%
2. Nominated for the Extra Mile Award by colleagues and clients in recognition of outstanding customer service
3. Trained 3 new accountants on reconciliation process, and helped Training and Development team to record training session for offshore team
4. Received positive feedback from colleagues on the quality of training

## **Education**

**Coding Bootcamp – Full Stack Web Development**  
University of Sydney

**Bachelor of Commerce – Professional Accounting**  
Macquarie University
